Adobe Tables, 2016

The sensation of movement and balance in static objects is one of our favorite design approaches and it is even more highlighted in the Adobe series. The tables are designed from a thin and continuous metal structure, balanced by a heavy marble block, which makes explicit the relation between the elements of the composition, as if each component would have an action over the other. Whether in a living room, bedroom, hall or even as a display of small objects, Adobe tables are presented as small functional sculptures, bringing organic forms to break the symmetry of the environments.

PRODUCT TYPE: Occasional Table

ENVIRONMENT: Indoor

MATERIALS: Steel, Marble

DIMENSIONS / NET WEIGHT
