

A minimalist interior scene featuring a white lounge chair and a black floor lamp against a light gray wall. The chair is composed of several large, rounded, white cushions with horizontal bands. The floor lamp is a simple black pole with a horizontal light fixture at the top. The overall aesthetic is clean and modern.

Fita Lounge Chair, 2023

The Fita series takes its design inspiration from the casualness of improvisation. The structure is limited to foams of different densities that have been enveloped with a entire piece of fabric and tied with stripes that unites the different materials in this synthesis of laid-back comfort.

Available in two fabric options developed by WENTZ that have wool as the main raw material. The fabrics represent a new textile path for the brand by using natural and fibers and traditional weaving techniques.
