PALO  
LAMP

## Palo Lamp, 2021

The Palo floor lamp keeps the lightness and texture of its pendant version. Its light can be used directly into a subject or reflected on the wall to create a more intimate atmosphere. Its great differential, which ends up giving more naturalness to the piece, is its texture. The metal is delicately rough, the result of an extrusion technique in which heat and action alter the aluminum.

PRODUCT TYPE: Floor Lamp

ENVIRONMENT: Indoor

MATERIALS: Aluminum, Acrylic, Steel, Stainless Steel

#### DIMENSIONS

W: 22cm / 8¾"

D: 22cm / 8¾"
