

WENTZ TELA HIGH STOOL

The high stool is the newest release of the Tela series. The backrest weave is inspired by the classic cane woven pattern of the mid-century furniture. It was recreated in a larger scale and made with cotton thread for more comfort and durability. While the back emphasizes the pattern, the slim frame and molded seat have smooth details and curves with a contemporary design approach. Tela High Stool is available in bar and counter heights versions to better adapt to architectural projects.
